Breaking down major brand campaigns from the biggest sporting event in history.

Key Marketing Lessons

01

Know your lane

The brands that won didn't try to out-football football. Coca-Cola sold emotion. Don Julio owned one moment. Home Depot leaned into community.

02

Build for the second screen

93% of fans will have a second device open during matches. Brands winning in 2026 designed for this, not against it.

03

Earn relevance, don't rent it

Coca-Cola's Trophy Tour is a 76-year relationship. Hyundai's youth camps build 15-year customer relationships. Advertising alone can't do that.

04

Ambush beats the badge

Nike generated more social engagement than Adidas at the 2014 World Cup without a single official FIFA association.
